

GRC Onboards Castrol to Its ElectroSafe Fluid Partner Program

Under the ElectroSafe Fluid Partner Program, Castrol and GRC will jointly evaluate and gather fluid test data through a proprietary protocol to optimize material compatibility, safety, and thermal performance. This will provide GRC's customers around the world with an expanded range of trusted fluids for their unique data center requirements.

GRC to Showcase Benefits of Single-Phase Liquid Immersion Cooling at Data Centre World in London

Throughout the show, attendees will have the opportunity to visit booth D710 to see the latest immersion cooling offerings from GRC. In addition, representatives from Castrol will be on hand to discuss their DC15 fluid, which is designed to improve the thermal management and performance of immersion cooling systems.

ElectroSafe Fluid Partner Program Continues Momentum with the Addition of SK Enmove

With SK Enmove's participation in the program, GRC's global data center customer base will have access to SK Enmove's proprietary immersion cooling fluids. The partnership will also provide an opportunity for the two companies to collaboratively develop and improve upon new fluid formulations and advancements.

Japan's Number One Lubricant Company Joins ElectroSafe Fluid Partner Program

With the addition of ENEOS' immersion cooling fluids to our ElectroSafe Fluid Partner Program, we'll not only have additional, globally available coolants, but also a forum for the two companies to continue to collaboratively develop and leverage new fluid formulations and advancements.

GRC Welcomes Shell as First Official Member of ElectroSafe Fluid Partner Program

By collaborating with Shell through our ElectroSafe Fluid Partner Program, we've expanded our capability to provide state-of-the-art liquid immersion cooling solutions to meet growing customer use cases and applications.

GRC Launches ElectroSafe Fluid Partner Program for Immersion Cooling

Our new ElectroSafe Fluid Partner Program validates participating manufacturers' dielectric fluids for use in our patented liquid immersion cooling systems, providing end-users with environmentally responsible fluids that meet our performance, safety, long-term availability, and other critical requirements.

GRC to Exhibit at Gartner's IT Infrastructure Conference and Lead Data Center Liquid Immersion Cooling Discussion

We're exhibiting at Gartner's IT Infrastructure Conference and Lead Data Center Liquid Immersion Cooling Discussion where CRO, Jim Weynand will be leading a discussion titled *Data Center Sustainability is a Team Sport*, which highlights the benefits of immersion cooling for data centers.

GRC to Demonstrate the Cost Reduction and Decarbonization Impact of Immersion Cooling at GIANT Health in London

GRC VP of Sales, EMEA Paul Edmondson, will participate in a panel at GIANT Health London 2022, discussing how immersion cooling enables healthcare entities to reduce the impact of the rising costs of power.

GRC to Discuss Environmental Benefits of Single-Phase Immersion Cooling at Capacity Europe 2022 in London

Our announcement continues GRC's expansion into key vertical markets, as the continued demand for data center sustainability and density drives the adoption of liquid immersion cooling.

GRC Expands Global Team with New VP Sales EMEA and Dir Bus Dev Public Sector

Our announcement continues GRC's expansion into key vertical markets, as the continued demand for data center sustainability and density drives the adoption of liquid immersion cooling.
