

Job Description – Engineering Lab Assistant / Tech – Product Development

Job Summary

Come join us at the nexus of data center technology, environmental sustainability, artificial intelligence, and edge computing. GRC is changing the dynamics of the Data Center industry. For over a decade, GRC is providing patented technology that eliminates the limitations of legacy air-cooling and allows for truly sustainable applications and total implementation flexibility.

As an Engineering Lab Assistant / Tech, you will be responsible for providing support to GRC's lab manager and testing engineer. This position is ideal for a student or skilled professional entering the technology marketplace that is hoping to develop real-world hands-on skills in an innovative engineering setting. With GRC, you will be operating in a dynamic, technology start-up which is changing the paradigm currently limiting today's data centers.

Key Responsibilities:

- Prepare lab equipment for upcoming experiments
- Report data and compile information into graphs and documents
- Clean and maintain lab equipment
- Use testing items to gather results
- Monitor ongoing tests and experiments, noting any differences

Preferred Skills and Qualifications:

- Excellent attention to detail
- Verbal and written communication skills
- Research and analysis skills
- Experience working with lab equipment
- Mathematic and measurement skills
- Knowledge of computer research and analysis programs
- Good teamwork skills
- Ability to keep detailed records
- Experience with computer servers and/or data centers
- Experience with Crypto / Digital Asset Management

- Experience with data loggers, pressure transducers, flow meters, thermocouples
- Experience with HVAC plumbing

Physical requirements

- Subject to standing, walking, sitting, bending, reaching, kneeling, pushing, and pulling.
- Occasional lifting of objects up to 40 pounds.

Other requirements

- Valid driver's license
- Personal vehicle (preferable)
- Cell phone

Safety

- Work safely and follow safety rules. Report unsafe working conditions and behavior. Take reasonable and prudent actions to prevent others from engaging in unsafe practices.

Pay Rate

- Commensurate with experience
